ALDY IMAM WIJAYA

SOFTWARE ENGINEER

Malang, Indonesia | +62 877-0251-9051 | aldyimam03@gmail.com
Portfolio | linkedin.com/in/aldyimamwijaya | github.com/aldyimam03

PROFESSIONAL SUMMARY

Software engineer focused on backend and full-stack web development, with production experience in PHP/Laravel, REST APIs, and relational databases. Delivered many API endpoints and multiple production features. Open to position software engineer, backend, and full-stack roles.

TECHNICAL SKILLS

Backend: PHP, Express JS, Laravel 8 - 12, REST API, Eloquent ORM
Frontend: Vue.js, JavaScript, HTML, CSS, Tailwind CSS
Databases: MySQL, SQL Server, PostgreSQL
Tools: Git, Postman, Swagger, Jest, PHP Unit
AI Assisted Dev: OpenAI API, Codex, Claude, Hermes, OpenClaw

PROFESSIONAL EXPERIENCE

Laravel Fullstack Developer | PT Kartika Sari Mulia — Oct 2025 – Present

- Contributed to the DIDX project for TAM, developing GetOffer, Financial Simulation, File Upload, PSFU/PDFU Survey, and TCO features.
- Supported secure data exchange from dealer-side DMS to the central DXMI platform through Sevola-based encryption and decryption.
- Built and maintained an HRIS attendance system using Laravel 8 and SQL Server, including check-in/out, attendance status calculations, and role-based access.
- Developed leave approval workflows, attendance dashboards, and Excel recap exports for HR reporting.
- Developing an internal ticketing system with request and status tracking; maintaining features based on user feedback.

Backend Developer & IT Documentation Intern | PT Griya Telko Nusantara — Mar – Oct 2025

- Developed 20+ REST API endpoints using Laravel 12 for inventory and equipment-loan operations.
- Implemented relational validation and CRUD flows for Branch, Item, and Variant entities, plus an API dashboard for requests and branch statistics.
- Documented endpoints with Swagger and supported frontend integration, debugging, and maintenance.

SELECTED PROJECTS

Inventory Web | Laravel 12, MySQL, Tailwind CSS — Jul 2025

- Built inventory management and tool-request features with authentication, relational data models, responsive pages, and Postman API testing.

Web Sales | Laravel 12, MySQL, Tailwind CSS — Sep 2025

- Created a cashier system with Admin/Cashier roles, product management, sales transactions, payments, and daily transaction dashboard.

Griya Client Zone | Laravel 12, MySQL, Tailwind CSS — Sep 2025

- Developed an ISP customer portal with secure login, profile management, payment history, and multiple database connections.
